The 12th ANNUAL MEETING of the
INDIANA CHAPTER of the AMERICAN COLLEGE OF CARDIOLOGY

Saturday, November 15, 2008
The Columbia Club
Indianapolis, IN

Jointly Sponsored/Co-Provided by The American College of Cardiology Foundation and the Indiana Chapter of the American College of Cardiology
STATION OF NEED
Cardiovascular disease is the leading health care problem throughout the world. In the United States alone, an estimated 70 million people have been diagnosed with one or more forms of CV disease, and over 910,000 Americans die from cardiovascular disease each year.

As the number of patients with cardiovascular disease continues to increase, quality indicators and measurement, along with rapidly emerging clinical technologies contribute to challenges and opportunities in an effort to achieve optimal patient outcomes.

OVERALL GOAL
Focusing on achieving optimal patient outcomes and the performance of the healthcare provider, this program will increase knowledge about quality indicators, cutting edge technologies such as CTA, gene therapy and VADs and increased participation in registries and clinical trials.

LEARNER OBJECTIVES
Upon completion of this program, participants should be able to:

- Recognize that political advocacy is required for CV providers to effectively care for their patients.
- Explain that quality measures need to be transparent, are not always under our control, and need to reflect patient outcomes.
- Discuss that cutting edge technology requires objective evaluation, common data and sensitivity to the cost of technology when new technologies are introduced into the clinical arena.

TARGET AUDIENCE
Adult Cardiologists, Pediatric Cardiologists, Cardiothoracic Surgeons, Cardiology Fellows-in-Training, Nurses, Nurse Practitioners, Clinical Nurse Specialists, Physician Assistants, Pharmacists

DISCLOSURE & COI RESOLUTION POLICY
ACCF/Chapter committee members, faculty, staff and other individuals who are in a position to control the content of this activity are required to disclose all real or apparent conflicts of interest. All relevant potential conflicts of interest that are identified are thoroughly vetted through a process that includes course directors and appropriate peer review by education committee chairs/members, for fair balance, scientific objectivity and validity, patient care and safety recommendations. Full disclosure will be published in the syllabus.

ACCREDITATION
Physicians
This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the American College of Cardiology Foundation and the Indiana Chapter of the American College of Cardiology.

The American College of Cardiology Foundation is accredited by the ACCME to provide continuing medical education for physicians. The ACCF designates this educational...
activity for a maximum of 3.50 AMA PRA Category 1 Credit(s)™. Physicians should only claim credits commensurate with the extent of their participation in the activity.

Nurses
American College of Cardiology Foundation is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center’s Commission on Accreditation.

The ACCF designates this educational activity for a maximum of 3.50 continuing education hours. Each attendee should only claim credits commensurate with the extent of their participation in the activity.

While offering CME and CE credits noted above, this program is not intended to provide extensive training or certification in the field.

Acknowledgment
At the time of printing, a complete listing of industry supporters was not available. Appropriate acknowledgment will be made upon confirmation of support and at the time of the program.

ATTENTION FELLOWS-IN-TRAINING AND CARDIAC CARE ASSOCIATES!

Call for Posters!
Opportunity to Present Research!
All current Indiana fellows in a cardiology training program and all Indiana Cardiac Care Associates are invited to present their research (past or present) during the poster session, scheduled for Saturday, November 15th. Eligible posters may present recent data, case study or information that has been presented previously at a local or national meeting.

Prizes
Oral Presentation
First and second place for the oral presentation will be awarded based on a combination of abstract content and oral presentation delivery as judged by a panel of cardiologists from various institutions. First place - $350; Second place - $200.

Poster Presentation
First place - $200; Second place - $150
Winners will be announced on Saturday, November 15, at the end of the meeting.

FRIDAY, NOVEMBER 14, 2008
10:00 a.m. – 2:00 p.m.
The Columbia Club in Indianapolis

Get in on the ground floor of the Indiana-ACC Cardiac Care Associate organization. You are invited to attend a special session just for cardiac care associates from 10:00 a.m. – 2:00 p.m. on Friday, November 14, as part of the Indiana-ACC annual meeting. Come participate -- whether you have ideas of what you would like to see or whether you just like to listen to ideas that your peers have!

General ideas include education, networking, information, and advocacy...but what would that look like for you? How would it be most convenient, useful, and fun for you to advance the field, help others, and grow personally? This session, which will include lunch, will set out the groundwork. You don't have to promise to work...just show up and give your ideas, then see if there is anything in which you would like to be involved. We look forward to seeing you.

Please note that this session does not offer continuing medical education credit.

SPECIAL MEETING AGENDA
Friday, November 14, 2008

10:00 – 10:15 a.m.
National CCA Update and News
Cynthia Adams, PhD, ANP-BC, RN

10:15 – 10:30 a.m.

Teddy Joe Whitmer, NP

10:30 a.m. – 2:00 p.m.
Strategy Session
Get in on the ground floor of the Indiana-ACC Cardiac Care Associate organization. We will chart the course for our group and take it from "blank slate" to your organizational ideal. We invite you to help build this up-and-coming member segment of the Indiana-ACC. Lunch will be served.
SATURDAY, NOVEMBER 15, 2008

Background
NCDR® is the recognized resource for measuring and quantifying outcomes and identifying gaps in the delivery of quality cardiovascular patient care in the United States. Its mission is to improve the quality of cardiovascular patient care by providing information, knowledge and tools, implementing quality initiatives; and supporting research that improves patient care and outcomes.

Please join your ACC- NCDR® colleagues for this special breakout session to discuss:

- Standardization and improvement of data management.
- Utilization of patient data for 3rd party payors, state reporting, and national data registries.
- Collaboration in Indiana to enhance clinical practice and patient outcomes.
- Door-to-Balloon Time.
- Hospital-based cardiovascular registry programs: ACTION Registry GWTG, Cath PCI Registry, ICD Registry, CARE Registry.
- The new office-based registry for cardiovascular patients: IC3 Program.

Let’s talk about how we perform our data managerial jobs on a day-to-day basis. What issues do you encounter? How can we improve our Indiana NCDR® network?

*Please note that this session does not offer continuing medical education credit.*
