Message from the President

20

Dear Indiana-ACC Colleague,

It is my pleasure to invite you to the Indiana-ACC's 20th Annual Meeting. Celebrating our 20th year will be made extra special with many of our past chapter presidents attending and participating in our sessions. Our annual conference is the ideal setting for the entire cardiovascular team to join together, learn and network. The program committee has crafted an agenda that reflects joint areas of interest. Please join us to celebrate 20 years together in the Indiana Chapter.

See you in October!

Ray

Call for Posters

Attention Fellows-in-Training and Cardiovascular Team Members! Call for Posters!

Annual Poster Competition with cash prizes.

Visit <http://www.inacc.org/2016-annual-meeting/> for submission details.

WHO CAN PARTICIPATE

1. All current Indiana fellows in a cardiology training program are invited to present their research (past or present) during the poster session, scheduled for Saturday, October 8. Eligible posters may present recent data, case study or information that has been presented previously at a local or national meeting.
2. Cardiovascular Team Members. All current Indiana-ACC Cardiovascular Team members (RN, NP, CNS, PA, PharmD) are invited to present their research (past or present) during the poster session. Eligible posters may present recent data or information that has been presented previously at a local or national meeting.

Statement of Need

While cardiovascular care is rapidly evolving due to new technologies and treatment options, healthcare providers need to be aware of the new health care environment in which they practice as well as knowledge of the past advances and technologies which contributed to the current standards of optimal cardiovascular care. Healthcare providers need periodic educational updates on emerging clinical trials and advances in patient management to provide optimal care. Knowledge and competencies learned from case scenarios applicable to daily practice and changes to practice guidelines, will allow them to apply evidence-based research to their patient management decisions.

Overall Goal

The overall goal of this activity is to increase learner competence by discovering strategies to anticipate research-driven changes in practice, to enhance professional growth, and to demonstrate efficacy in team based patient care practice as new clinical approaches and technologies change. The Indiana Chapter-ACC Annual Meeting will include education that provides needs-based learning covering a thorough overview of heart failure, health care legislation, population health initiatives, and improving performance by using appropriate guidelines based treatment.

Learner Objectives

Upon completion of this program, participants should be able to:

- Review new tools and regulations that impact the practice environment and highlight the crucial role that ACC plays in shaping the practice environment of the future.
- Employ latest advancements in the management of the heart failure patient.
- Review ways that population health initiatives enable the provision of care that is of higher quality and results in greater patient and provider satisfaction.
- Analyze how the past 20 years of cardiovascular medical advances has impacted the care of the patient.

Target Audience

Adult Cardiologists, Pediatric Cardiologists, Cardiothoracic Surgeons, Cardiology Fellows-in-Training, Nurses, Nurse Practitioners, Clinical Nurse Specialists, Physician Assistants, Pharmacists

ACCF Disclosure & COI Policy Statement

ACCF/Chapter committee members, faculty, staff and other individuals who are in a position to control the content of this activity are required to disclose all real or apparent conflicts of interest. All relevant potential conflicts of interest that are identified are thoroughly vetted through a process that includes course directors and appropriate peer review by education committee chairs/members, for fair balance, scientific objectivity and validity, patient care and safety recommendations. Full disclosure will be published in the syllabus.

Accreditation

Physicians

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the American College of Cardiology Foundation and the Indiana Chapter of the American College of Cardiology. The American College of Cardiology Foundation is accredited by the ACCME to provide continuing medical education for physicians.

The ACCF designates this live educational activity for a maximum of 4.5 *AMA PRA Category 1 Credit(s)*[™]. Physicians should only claim credits commensurate with the extent of their participation in the activity.

Nurses

American College of Cardiology Foundation is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

The ACCF designates this educational activity for a maximum of 4.5 continuing education hours. Requirement for successful completion is attendance at the program in its entirety and completing the evaluation tool.

While offering CME and CNE credits noted above, this program is not intended to provide extensive training or certification in the field.
